Learning Materials Reflective Exercise

Directions: Spend some time observing the infants and toddlers in your care during play and then answer the following questions:

1: Identify three learning materials that toddlers choose frequently or that infants show an interest in.

2: Why do you think these materials are chosen / seem interesting on a regular basis?

3: Identify three learning materials that children rarely play with or show an interest in?

4: Why do you think these materials are rarely played with?

5: What would you do to increase the children’s interest in these materials?
