Perspectives on Leadership

What are some values or opinions you hold about leadership in the early childhood setting? Read the articles in the Apply section of Lesson 1 within the Preschool track Program Management course. Then respond to the following questions:

1. How are mentoring and learning encouraged in your program?

2. Are there times in your classroom or program where you follow rather than lead? Why or why not?

3. How do you go about getting others (children, colleagues) to follow your leadership? Give a few examples.
