### Language/Literacy

**Understanding Words and Letters**
- How to understand, comprehend, and interpret information in a book
- Learning new words
- Parts of sentences
- The name, sound, written form, and uses of the letter B
- A sentence is a group of words that gives us information

### Mathematics

**Counting Things**
- How to count and match equal groups of items
- How to verbally count to 10 and count backwards from 10 to 1
- How to follow verbal instructions for counting actions

### Self-Regulation

**Using Self-Control**
- Practicing how to wait patiently
  - Using a timer
  - Playing the *I Spy* game and saying the “Wiggle Rhyme”

### Social-Emotional

**Getting Along with Others**
- Helping someone means doing something useful for someone
- Helping someone can make the person and ourselves feel good

### Social Studies

**Appreciating Our Families**
- How to represent through drawing a special activity we like to do with someone in our family
- Grandparents and older family members (elders) are important members of a family

### Creative Expression

**Creating Art**
- Different types of paints we can use to create a painting
- Different types of tools we can use to create a drawing, including crayons, pencils, chalk, and markers
- Using clay or dough to create art

### Physical/Health

**Moving Our Bodies**
- How to hop
- *Hoop Hop* game
### Readiness Starts Early: Tips for Promoting Your Child’s Learning

#### 3–5 Years

**WEEK 7**

<tr>
<td><strong>Helping others is a valuable way to get along well with others.</strong></td>
<td><strong>Understanding that a sentence is a string of different words is a core early literacy skill.</strong></td>
<td><strong>Practice in counting things strengthens children's understanding of numbers.</strong></td>
<td><strong>Children learn about the variety of materials used by artists by experiencing the materials.</strong></td>
<td><strong>Hopping on one foot involves balance and core strength.</strong></td>
</tr>
<tr>
<td>• Help your child plan two different ways to help your family or someone else. Examples: select unwanted toys to give to a family shelter; help sibling(s)/friends pick up toys after playing; match socks as a part of doing the laundry. Encourage your child to carry out at least one of the plans.</td>
<td>• Use a book with one or two simple sentences on a page to show your child how a space separates words in a sentence. Point to each word as you read a sentence. Invite your child to point with you as you read each word.</td>
<td>• Invite your child to help organize a pretend birthday party with stuffed animals or dolls. Invite your child to count how many animals or dolls are guests. Use blocks (or similar items) as cupcakes for the celebration. Help your child count the number of cupcakes needed so each guest gets a cupcake.</td>
<td>• Provide your child with a variety of experiences using different types of art materials. Examples: markers, crayons, chalk, colored pencils, clay, play dough; and different types of paint such as watercolors, tempera, and acrylic.</td>
<td>• Help your child practice hopping on one foot by holding hands. Have your child use slightly bent knees to help maintain balance. Start by having your child hop in place. Then advance to hopping five steps forward, turn around, and hop back to the starting place on the other foot.</td>
</tr>
<tr>
<td><strong>Waiting patiently is an important life skill.</strong></td>

<td><strong>Social Studies</strong></td>
<td><strong>Music</strong></td>
<td><strong>Physical/Health</strong></td>
</tr>
<tr>
<td>• During a snack time, encourage your child to wait 10 seconds between bites. Count slowly to 10 or use a timer. Over time, slowly increase wait time between bites—up to one minute. Develop strategies with your child for what she/he can do while waiting.</td>
<td><strong>Encouraging your child to plan two different ways to help your family or someone else.</strong></td>
<td><strong>Understanding how families are the same and different helps children learn how each family is unique.</strong></td>
<td><strong>Expressing creativity through music.</strong></td>
<td><strong>Hopping on one foot involves balance and core strength.</strong></td>
</tr>
<tr>
<td>• Talk with your child about family members who live with you, live nearby, or live far away. Make a photograph book together of family members. The book can be your child’s own special book about his/her family.</td>
<td><strong>Using a book with one or two simple sentences on a page to show your child how a space separates words in a sentence. Point to each word as you read a sentence. Invite your child to point with you as you read each word.</strong></td>
